

## No

No to the woman who wants to have work  
Why should a broad get more than a perk?

No to the woman who wants emancipation  
Why should a man give this thought toleration?

No to the woman who wants to run away  
Although her husband hits her why shouldn't she stay?

No to the woman who wants a tribute  
Does she want it for feeding babies and cooking some food?

No to the woman who wants to say no  
That's just a word for a man as you know.
